

Gunny-isms

USE GUNNY'S RED OIL. **YOU'LL THANK ME SOMEDAY.**

THE ONLY REASON I CARRY A 45 IS 'CAUSE THEY DON'T MAKE A 46!" and **" IF IT DON'T START WITH A "4" IT AIN'T BIG ENOUGH."** (Gunny didn't think much of a puny little 9mm).

IF IT AIN'T DRIPPIN' OFF YOUR ELBOW, YOU DON'T HAVE ENOUGH OIL ON IT, SON!

YOU DON'T HAVE TO LOOK PRETTY TO SHOOT ACCURATELY

GREASE IS CHEAPER THAN PARTS.

Ingredients: Contains a secret blend of 24 oils, lubricants, emollients , balms and ointments, rumored to even include Texas Copperhead snake oil, greazed owl pooh, and central mountain gorilla snot, but we won't admit to it.

A drop will do it, but as Gunny said, **IF IT AIN'T RUNNIN' OFF YOUR ELBOW, YA AIN'T GOT ENOUGH OIL ON IT, SON...**

Gunny's keeps 'em shootin'!

For the liberal weenies, Gunny's Red Oil is gluten free, totally organic, homeopathic, fair trade and was not tested on animals. It's oil, you idiot! Ya don't eat it! If you cook with it, you'll probably get a bad case of the Green Apple Splatters. Don't do that!

This oil was tested on mice. It eventually fixes all squeeks if you soak 'em in it long enough...
